KemFoamX™ 2848

Silicone defoamer

KemFoamX 2848 is a silicone emulsion defoamer used in different applications and various industries.

Application

Dosage rates can vary by application. For the most accurate information, please contact your Kemira technical sales representative.

Delivery

Please contact sales representative for available package sizes.

Product Safety

For specific handling information, please refer to the current Safety Data Sheet, which is available upon request. When handling this product always wear appropriate personal protective equipment (PPE).

Regulatory

These products may conform to certain Regulatory requirements. Please contact your Kemira Sales Representative for more details, or refer to the appropriate Regulatory information sheet.

Storage

For best product performance it is recommended to store the product in sealed containers at moderate temperature (normally between 2 - 30°C). Avoid freezing and extreme temperatures. Under these conditions the product could be stored for 6 months.
